1—Prime Minister MacDonald of Great Britain addressing the American House of Representatives. 2—Monument to the Ohio river, erected in Eden park, Cincinnati, to be dedicated by President Hoover on his visit to the Midwest. 3—New York docks jammed with rotting fruit and vegetables during the strike of the teamsters and chauffeurs union which shut off the city's supply of fresh food.

NEWS REVIEW OF  
CURRENT EVENTSMacDonald Visit Ends and  
Naval Conference Is  
Called by England.

By EDWARD W. PICKARD  
FIRST fruit of the momentous conversations between President Hoover and Prime Minister Ramsay MacDonald in the Virginia fishing camp and the White House was the invitation issued by Great Britain to the United States, France, Italy and Japan to participate in a naval conference in London next January. The proposal of the British government is in effect to convene, revise and extend the naval limitation agreements reached at the Washington conference of 1921-22, with a view to gradual disarmament in accord with the spirit of the Kellogg pact in which all countries have renounced war as an instrument of national policy.

In order to give assurance that there will be no differences between Great Britain and the United States over cruiser tonnage to wreck this conference, as occurred at the Geneva conference of 1927, the London government informs Japan, France and Italy that the two Anglo-Japanese negotiations have virtually reached an agreement based on parity of the two navies in all classes of ships.

There is no doubt that the invitations will be accepted, though there will be some opposition to holding the conference in London. America's acceptance was announced Thursday, France, it was believed, would make three reservations, asking that the work of the conference be dissociated with the Kellogg pact; that the proposals for abolishment of the submarines be dropped by England and America before the meeting opens; and that France have the right to call for a new ratio on cruisers, destroyers and submarines. It was understood that Italy would adopt practically the same attitude as France; and Japan was expected to accept the invitation without reservations. Each British dominion also was invited to send representatives to the conference.

When Mr. MacDonald's Washington visit actually came to an end he and Mr. Hoover issued a joint statement to the effect that in their conversations they had reached an understanding that the United States and Great Britain would co-operate to preserve the peace of the world and that settlement of all disagreements between the two countries in the future should be sought on the assumption that war between them is unthinkable. Sincere acceptance of the Paris peace pact is reaffirmed, and confidence expressed in the success of the naval conference. The significant paragraph of the statement reads:

"The part of each of our governments in the promotion of world peace will be different, as one will never accept to become entangled in European diplomacy and the other is determined to pursue a policy of active co-operation with its European neighbors, but each of our governments will direct its thoughts and influence towards securing and maintaining the peace of the world."

This is designed to quiet the apprehensions, felt especially by the French, that the MacDonald visit would result in an actual alliance between America and Great Britain intended to force upon the rest of the world their interpretation of disarmament and peace. At every opportunity Mr. Hoover and Mr. MacDonald exchanged such statements as the following: "We are not out for any exclusive alliance. You would reject it. So would I. It is not for the benefit of either of us."

The President and the prime minister discussed in a general way other topics besides the naval conference. These included the Anglo-American war debt, freedom of the seas and the British naval bases on the American Atlantic coast. It was agreed that the naval matter should be the subject of further consideration after Mr. MacDonald has returned to London.

So socially as well as politically, Mr. MacDonald's visit was a great success. He and his daughter, Isabel, were lavishly entertained, there were state dinners at the White House, the British embassy, and at the home of Secretary Stimson, and the prime minister was given the honorary degree of Doctor of Laws by the George Washington university. After the formal farewells in the Capital the British party left for Philadelphia and New York, secure in the belief that Mr. MacDonald's unprecedented adventure had accomplished extraordinary things for the two nations and for the world at large.

IRWIN B. LAUGHLIN of Pittsburgh, one of the "career" diplomats, has been appointed by the President as ambassador to Spain to succeed Ogden H. Hammond, resigned. Mr. Laughlin's last assignment was as minister to Greece, where he served from 1924 to 1928. Prior to his appointment Mr. Laughlin had been stationed in various diplomatic capacities at many of the principal capitals of the world. He began his career as private secretary to the minister to Japan.

ONCE again the Democratic senators and those radicals who persist in calling themselves Republicans scored on the administration senators in the tariff battle. This time by a vote of 44 to 41 the senate rejected finance committee amendments broadening the rights of manufacturers and wholesalers to intervene in customs disputes before the treasury and the courts. Later the senate rejected an amendment offered by King of Utah which would have granted independence to the Philippines, and debated another proposal to levy tariffs on imports from the Philippines and return the revenue thus derived to the islands until independence is granted. These proposals really were made for the benefit of the American beet sugar growers and domestic producers of vegetable oils.

The strength of the Democratic-radical combine led to forecasts that there would be a deadlock over the tariff bill in conference and that the measure would fall of enactment in the special session. There were those who said this result would not be entirely displeasing to the President and that the administration would not favor the revival of the bill in the regular session of congress.

ALBERT B. FALL, former secretary of the interior, appeared in Washington for his trial on bribery charges connected with the oil scandal, and refused to ask a continuance on account of his exceedingly poor health. But before the taking of testimony began he collapsed and a recess was ordered. The court designated Dr. Sterling Hoffman to examine him, but Fall refused to receive the specialist, explaining his action as an purely personal grounds and that Foster Hulin was the only physician in the country whom he would consent to examine him.

THREE more loans were authorized by the federal farm board. The Florida citrus exchange is to get a facilities loan of \$250,000; and the Tennessee cotton growers' association and the South Carolina cotton growers' co-operative association receive supplemental loans of \$250,000 and \$300,000 respectively. The aid was in the Florida citrus exchange and is secured by first mortgage on packing plants of local mills.

REUTERS from India say that Nader Khan, the capital of Afghanistan, has been captured by the forces of Nadir Khan and that Habibullah Khan, otherwise Dacha Sakau, had fled by airplane. Evidently the story of the alleged king's assassination two weeks ago was at least premature. The troops of Nadir's brother are said to have scattered Habibullah's army and to have entered the capital, the Afghans taking refuge in the hills.

SIXTH MONTH SHEPPARD of Texas has put forward a proposal to amend the Volstead act so as to make the purchase of liquor a crime as well as the sale of it. But the idea is meeting with strenuous objection and has been dropped for the time being by the dry leaders. Some thought

it would nullify the whole scheme of prohibition, and others, like Senator Norris, chairman of the judiciary committee, held that it might completely break down prohibition enforcement. Mr. Norris said the plan, if adopted, would prevent 95 per cent of the prosecutions in prohibition cases, for in fully that number the testimony of buyers must be relied on for convictions. Senator Hawes of Missouri, a wet, said: "The matter of 'purchase' purposely was omitted from the Eighteenth amendment, and if it is to be brought up now the proper method would be by the submission of another constitutional amendment."

PREPARATIONS were completed for the investigation of lobbies operating in Washington by the senate. The subcommittee of the judiciary committee, which is to conduct the hearings, was named, as follows: Caraway of Arkansas, chairman; Borah of Idaho, Robinson of Arkansas, Blaine of Wisconsin and Walsh of Montana. Thus the inquiry is dominated by radicals, drys and pacifists and it is expected to go especially hard for the eastern high tariff interests, the big navy and other preparedness organizations and the wet associations. The tariff lobby was scheduled for first attention. Probably the hearings will last through the winter.

A MEXICAN FEDERATION OF LABOR delegates opened their annual convention in Toronto with President William Green in the chair. The most interesting event of the week was the start of an attempt to bring the Brotherhood of Railway Trainmen back into the federation. Albert Whitney, chief of the brotherhood, was loudly cheered when he told the convention he saw no reason for the brotherhood to remain separated from the rest of the labor movement and that he intended to ask the lodges of the order immediately to vote on a proposal to affiliate.

For four days New York's supply of fresh fruits and vegetables was seriously curtailed by a strike of the teamsters and chauffeurs' union, and freight yards and clerks were jammed with rotting produce worth millions of dollars. The strike was called off when the Market Truckmen's association agreed to accept one of two propositions made by the union. The men were to get either more wages or shorter hours.

The workers' week has gone into effect in Soviet Russia and is said to be creating distressing confusion in industry.

DIEUDONNE COSTE and Maurice Bellonte, French aviators who started eastward from Paris for an endurance flight and were thought to have been lost in the wilds of Siberia, turned up in Manchuria near the Mongolian border, 4,840 miles from their starting point, breaking the world's straight line distance record. It took them about a week of foot travel to reach a place where they could get in communication with the outside world.

Colonel Lindbergh, with Miss Lindbergh and two archeologists, spent several days flying over the jungles of Yucatan, Guatemala and British Honduras. Their purpose was to explore unknown regions in the search for ancient Maya cities, and they were successful in discovering several extensive ruins not heretofore known. The Lindberghs then flew from Belize to Miami, Fla.

FEDERAL inquiry into liquor and vice conditions in northern Indiana has resulted in hundreds of indictments and arrests. Among the accused are the mayor of East Chicago and many police officers of towns in the northwest corner of the state. The charges include violations of the liquor, white slave, narcotic and auto theft laws.

COL. THEODORE ROOSEVELT arrived in San Juan, Porto Rico, and was immediately inaugurated governor of the island. The ceremonies took place in the new capitol building, and the governor was then escorted by a parade to La Fortaleza, the ancient building that will be his official residence.

## NORTH WATERFORD

Charles Marston is staying with Mr. and Mrs. F. P. Hazelton while his wife is at Fryeburg visiting her daughter, Mrs. Sidney Hatch and family. Edith Dargis, Mabel Stanley, Billa Marston and Annie B. Hazelton spent Tuesday at Lewiston.

THE FOWLER RANGE  
OIL BURNER

THE FOWLER RANGE OIL BURNER has the following features:

It is built for long life, the castings alone weighing approximately 25 pounds.

Has a 6 Gallon Galvanized Iron Tank; doing away with the small size, objectionable glass bottles.

Each burner is equipped with a brass carburetor to regulate the flow. This is not used on other burners, and absolutely does away with air pockets in the oil lines.

Light without smoking, and produces a high temperature flame very quickly.

The Fowler Range Oil Burner is built for long life. Compare its heavy castings, all brass fittings and needle valves with any other burner on the market, and judge for yourself the great difference in durability.

## CHURCH ACTIVITIES

**BETHEL METHODIST CHURCH**  
Rev. W. R. Patterson, Pastor  
Our Church School meets at 9:45 Sunday morning.

Preaching Service, 10:45. Subject "Repentance." I wonder if we are not a little off in choosing a subject like this, in our wonderful modern age? Is it not true that the great majority of people in this happy-go-lucky age push the word, "repentance," entirely from their vocabulary?

Epworth League Sunday evening, 6:30.

Regular Sunday evening service 7:30. Topic, "Pardon." We consider this to be one of the biggest words in our language, in that it reveals to us the attitude of God toward a guilty people.

Class Meeting Tuesday evening 7:30. The Annual harvest supper will be held in the dining room of the Methodist Church Wednesday evening 6 o'clock October 23rd.

### FIRST CONGREGATIONAL CHURCH

L. A. Edwards, Pastor  
9:30 Church School, Miss Ida Packard Superintendent.

10:45 Morning Worship. Subject of sermon by the pastor, "Children of God." There are various views upon the question, "Who are the Children of God?" The ancient Hebrews regarded themselves as the chosen people, and therefore had a right to claim special privileges.

There are churches today who claim to exercise the Divine Right of adopting men and women into the Kingdom of God, and thereby giving to them the rights of sons and daughters of God. When children are born into the world, are they then children of God? Do we become children of God by an act of Grace? We shall consider some of these questions in the sermon next Sunday.

6:30 Meeting of the Comrades of the Way. Subject to be considered will be "What do we mean by real living?"

Leader, Kathryn Herick.

All young people are welcome at this service.

## Run-Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year old" at night, you must eat three good meals a day, relish your food and properly digest it. If you can't eat, can't sleep, can't work, just give Nature the chance to do for you what she is always doing for millions.

Mr. H. C. Johnson, Bethel, writes: "I was so run-down and nervous that I lost all energy and weight. After taking a few bottles of Dr. Williams' Pink Pills, I feel like a new man. My appetite is good, I sleep well, and I am able to do my work."

Take a bottle of Dr. Williams' Pink Pills for Pale People, and you will find it a most successful remedy for the run-down, weak, nervous, and all the ailments that result from a poor blood. It is made of roots, herbs and fruits, and is as pure as the water you drink. It is a most successful remedy for the run-down, weak, nervous, and all the ailments that result from a poor blood. ## If Mothers Only Knew

Thousands of Children Suffer from Worms, and Their Mothers Do Not Know What the Trouble Is.

Signs of Worms are: Constipation, distended stomach, swollen upper lip, often, sore throat, hard and full stomach with pain, pale face, eyes heavy, short sleep, grinding of the teeth, little red spots on the tongue, starting during sleep with troublesome dreams, slow fever.

Mrs. H. N. Roberts, 522 Asylum St., Flint, Mich., wrote: "My little girl is relieved of her worms." And in a later letter wrote: "Baby is fine and it was your Dr. True's Elixir that helped her."

## THEY KEPT

## A BANK ACCOUNT

As you look around you can see the success of a great many men whom you know who had no greater chance than you.

They practiced industry and thrift.

This is a habit easily and pleasantly acquired.

IT'S the starting a bank account and settling down to a set purpose.

GET your idea fixed on this and call at the bank as soon as convenient.
